## Bio

I'm an ambitious developer with enthusiasm based in Sweden. I am passionate about solving problems, developing and building software and learning everyday to become more professional on the IT-branch. Development is the most powerful skill that i have.

## Education

2021 – 2024 kristianstad, Sweden	<b>Software development, <i>Kristianstad University</i></b> learning profoundly about software and applications development, data science
2012 – 2014 Khartoum, Sudan	<b>Management Information system, <i>Sudan University of Science &amp; Technology</i></b> I pursued my IT and software passion in Sudan University of Science & Technology

## Professional Experience

Apr 2023 – Jun 2023 Germany	<b>Ecommerce website, <i>christmas3dp</i></b> Collaboration Full-stack MERN project for a 3D printer E-commerce website which has an admin panel and client. The admin can add, modify, and delete products and also can view users' information, emails, orders, and payment transaction. The admin also can see the sales analysis and user analysis. The client can order a product and has a profile to show the order history, add a shipping address, update the user information
Feb 2023 – Mar 2023 kristianstad, Sverige	<b>Website for law firm, <i>MBL 11, law firm</i></b> developing a website for a law firm specializing in labor worker rights. the website has an application form for the user and depending on the user input, the user gets an estimated compensation value if they decide to go to court, the website is built with WordPress and javascript.
Dec 2021 – present Doubi, UAE	<b>Clinic web application, Freelancer, <i>Uptodate Medical Center</i></b> Corporates a team of 3 members to develop a clinic web application. We use JavaScript, Next JS, Node JS, and chakra UI. I was responsible for various tasks between the front-end and back-end
Dec 2021 – Jan 2022 Stockholm, Sweden	<b>Sanity Headless CMS, freelancer, <i>Ebo krdum (artist)</i></b> Build and design a Sanity CMS system for website managing start-to-end. Plug-in architecture and custom input components for inserting and modifying data. Managing text, images, and other media with APIs. Integrating sanity with Next JS

Aug 2021 stockholm, sweden	<b>Web development, Freelancer, artist website Ebo krdum</b> Create a responsive, user-friendly artist website with the Next JS Vercel deployment. Used chakra UI, and React Icon for the CSS.YouTube integration to fetch videos.
Apr 2019 Stockholm, Sweden	<b>Web development, freelancer, kassala association</b> Develop a website for Kassala association end-to-end. Website builds with React JS, Bootstrap UI, React-router, Sweetalert JS, and Fontawesome UI. Google map integration
Jun 2015 – Dec 2015 Örnsköldsvik, Sweden	<b>Electronics fitter, Återbruket Bredbyn</b> Dismantled old and broken electronics products I took apart the products and sorted the different parts into recycling baskets. Responsible for cleaning my workplace.
Oct 2019 Stockholm, Sweden	<b>Recruiter, Hyresgästföreningen (Tenant association)</b> As a member recruiter. I go around Stockholm and tap Tenants' doors to recruit members of the Tenants' Association. I work with a group responsible for the area's reporting problems. Working with a team from the housing development department, to help the tenants to start a new Local tenant association.
May 2018 Stockholm, Sweden	<b>Restaurant Assistant, vasa museum restaurant</b> During working hours, I had different tasks like payment, welcoming customers, taking and service orders making sure everything is proper and organized
